

Privacy Policy

This website was commissioned by Semiconductor Portal, Inc. and is operated by AEC/APC Symposium Asia secretariat (Semiconductor Portal, Inc.).

This is the site for information and registration of AEC/APC SYMPOSIUM ASIA 2025.

The personal information you provide will be used to respond to inquiries about the symposium. We will not provide your personal information to any third party without your consent or as required by law, or except as described above.

Personal Information Protection Policy

Our company (Semiconductor Portal, Inc.) will promote the protection of personal information by establishing the following personal information protection policy, building a system for protecting personal information, and ensuring that all employees are aware of the importance of protecting personal information and their efforts to protect it.

Management of personal information

In order to keep customers' personal information accurate and up-to-date, and to prevent unauthorized access to, loss, damage, falsification, or leakage of personal information, we take necessary measures such as maintaining a security system, developing a management system, and thorough employee education, and implement safety measures to strictly manage personal information.

Purpose of use of personal information

This website may ask you to register your name, e-mail address, telephone number and other personal information when you contact us. The personal information we receive from our customers will be used to send e-mails and materials as a means of contacting them and answering questions about our business.

Prohibition of disclosure and provision of personal information to third parties

Our company shall appropriately manage personal information received from customers and shall not disclose personal information to third parties other than the sponsors, except in the following cases

- When the customer has given consent.
- In the event that our company discloses personal information to a contractor to provide services requested by the customer.
- When it is necessary to disclose the information based on the law.

Security measures for personal information

We take all possible measures for security to ensure the accuracy and safety of personal information.

Inquiry by the customer

If a customer wishes to inquire about, correct, or delete his or her personal information, we will respond after confirming the customer's identity.

Compliance and review of laws and regulations In addition to complying with Japanese laws and

regulations and other standards applicable to personal information held by our company, we will review the contents of this policy from time to time and make efforts to improve it.
